FROM THE PRESIDENT

Summer is here—the flowers are blooming, grass is growing, and campers are appearing everywhere! What a happy feeling to see all this.

I personally want to thank all those who have graciously volunteered to help welcome all the people coming to the gate. It is well worth the time, to say hello with a smile. We do have a great campground. Members, don't forget to fill in the gate cards. It will be easier for your guests to enter.

We have one more project that needs some volunteers. If you would like to help with the flower beds at the Miniature Golf Course, I sure could use some help. The horse is lost on the overgrown plants and weeds! Will you help? Stop at my lot if interested!! D112

CHANGES TO OUR EVENING DANCES

There are continuing problems with young children on the dance floor. They are not teens ... they are babies not more than three to six years old, on the dance floor , unattended ... running and jumping around because they don't really know how to dance yet. The only complaints I have heard about the dances is the behavior of these young ones and I've heard them for several years. As the Recreation Chairman I've decided to make some changes for the remainder of the 2017 season. So.. My policy will be:

All children age twelve or under must sit with a parent or adult guardian to enjoy the music.

If the children want to dance, they must dance with their parent or adult guardian who will be responsible for their behavior.

There will be no more break dancing or rolling around the dance floor.

There will be no more running across the dance floor or around the perimeter of the hall.

Also, there will be no more cartwheels across the dance floor. It's a dance floor ... not a gym!

The Recreation Committee plans Dances and Shows primarily geared toward adults. The hours and music are also geared toward adults. We would not consider scheduling an event for preschoolers from 8 to 11 pm.

Some of our members may be unhappy about this change but the majority of our dancers will be relieved.

Sandy McGuire Rec. Chairman

MAINTENANCE REPORT JULY 2017

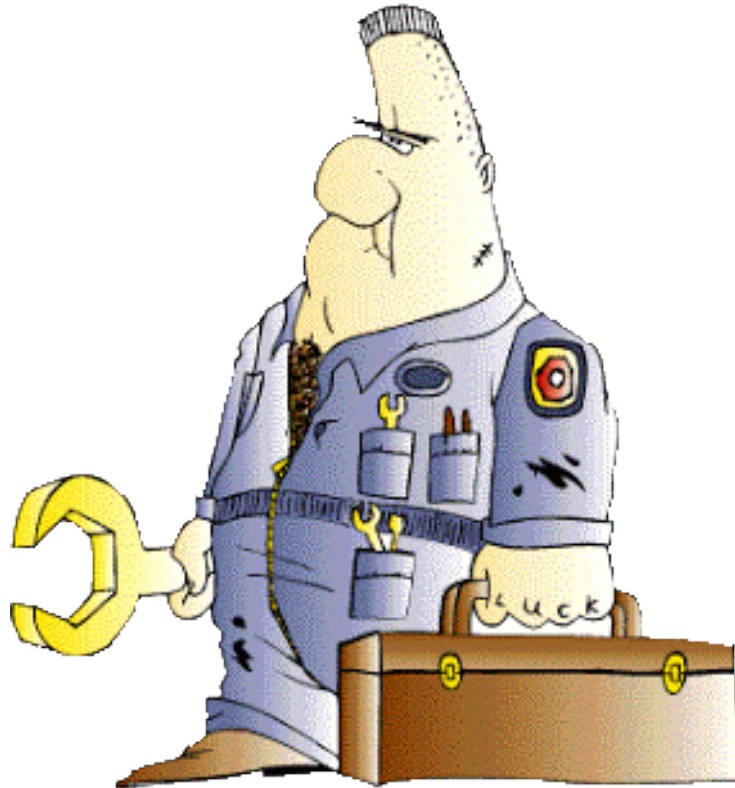

Hello all again, well the last time I was writing the article for the maintenance report it was going below freezing and now it went above nighty degrees.

The leaf sucker has been in service and we can't keep going around all summer getting leaves with the truck so we won't be collecting leaves until this fall and a schedule will be set up.

The maintenance been even busier It seems like we unusual number of drants that have had changed. They must and replaced which to four or five hours. had the normal elec- lems.

We have upgraded the indoor lighting in the water plant, recreation hall, the office, and the bath houses to LED lighting which will save a lot of money on electric.

A company has finished doing smoke testing to the sewage system to determine leaks from ground and or storm water and he met with the manager Diane Falvo, the maintenance crew, and several board members. He gave a very detailed presentation and we are waiting for the final report so we can go over it in more detail and determine our plan of action.

Thank you and I hope the rest of your summer season will go well and safe,

Dave Kirch, Chairman Maintenance Committee
